Vehicles, which arrive and do not have a permit and do not comply with the regulations, will be re exported at the owner's cost.

Before the vehicle is released to the client the following three steps must be taken:

1. Documentation showing import approval must be presented
2. Customs duty/& GST must be paid
3. Quarantine must pass the vehicle as being clean.

The Quarantine dept will check the vehicle (especially underneath and near the wheel arches and mudguards) to ensure that there is no dirt/mud. If clean it will be released, however if dirty it will be ordered for steam cleaning.
